EDUCATION

M.H. Saboo Siddik Polytechnic
Diploma – 88.78%

06 2021 – 04 2024
Mumbai, India

Thakur College of Engineering and Technology (TCET)
Undergraduate - 9.56

07 2024 – 04 2027
Mumbai, India

COURSEWORK / SKILLS

- Operating Systems
- Network Security
- Web Application Security
- Android Development
- Digital Forensics
- Computer Networks
- OWASP Top 10
- Application Security (AppSec)

PROJECTS

USB Write Protection & Evidence Integrity Monitor | Python, Windows APIs, Digital Forensics

01 2025 – 01 2026

- Implemented tamper detection, forensic logging, and hardware write-blocking concepts.
- Implemented MD5/SHA hashing to verify and monitor the integrity of forensic evidence files.
- Developed a prototyping hardware write- blocking mechanism using Arduino Uno and USB Host Shield

Child Monitoring System | Android, Java/Kotlin, Firebase, Google Maps API

08 2023 - 04 2024

- Developed an Android application for real-time child location tracking and emergency alerts.
- Integrated Google MAP API and firebase for live tracking and real time data synchronization.
- Implemented user authentication, location sharing, and an intuitive interface to provide parents with continuous monitoring.

INTERNSHIP

Heuristic Academy, Byculla, Mumbai

06 2023 – 07 2023

Android Developer Intern

Mumbai, India

DY Patil College of Engineering, Nerul

12 2025 – 01 2026

Cyber Forensics Intern

Navi - Mumbai, India

TECHNICAL SKILLS

Languages: Python, Bash

Developer Tools: VS Code, Android Studio, GitHub, Git

Technologies/Frameworks: Linux, Kali Linux, Metasploit, Burp Suite, Nmap, Wireshark

EXTRACURRICULAR

Mesco Trust

06 2024 – Present

Volunteered in organizing and supporting technical events, workshops, and student engagement activities.

Tech Event

Participated in hackathons, technical debates, and webinars to strengthen problem-solving and technical skills.
